Remove Protective Film

- ◆ **Remove protective film**
 - **Start in a corner to begin separating film**
 - **The shields and bases have slots, start removal of film on opposite side of slots to keep from applying undue stress to the slot cutout**

Start opposite
of slots

Slots

Install Bases (2) Into Shield

◆ Install bases

- Stand shield vertically upside down
- Slide bases into slots as shown, this is very snug, continue bumping with hand until flush

Flush

Install Wings (Standard Guards Only)

◆ Install wings

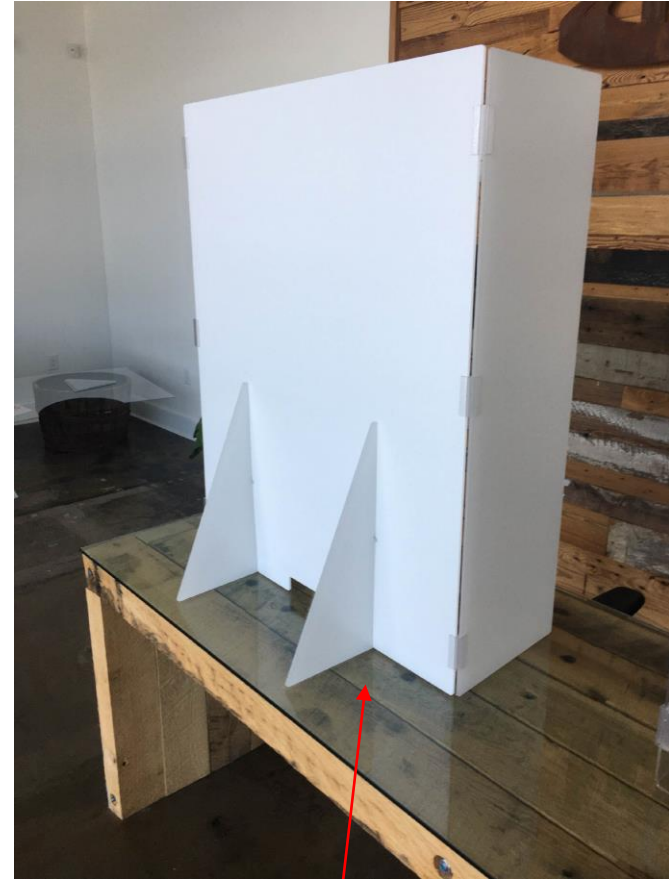

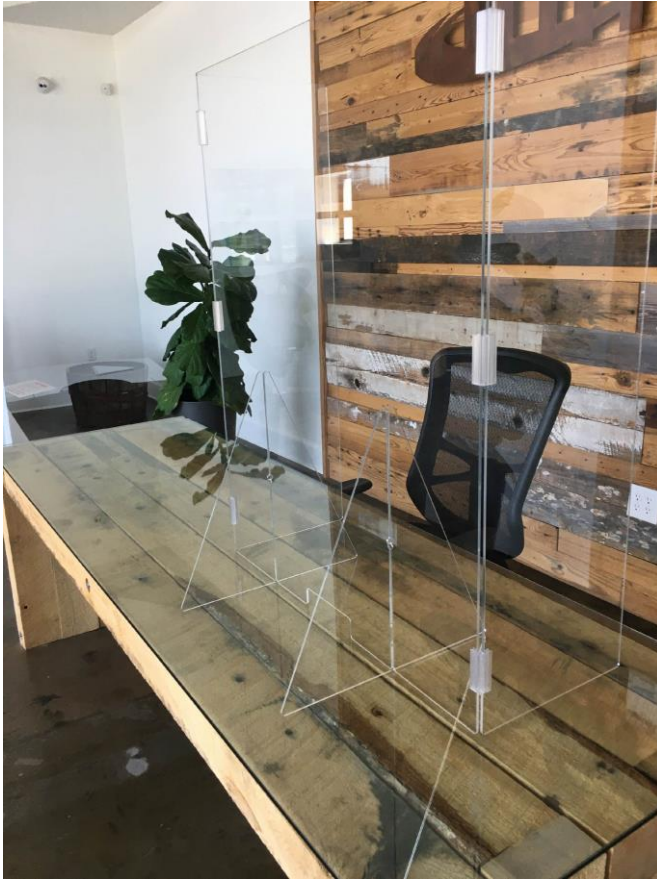

- First install 3 corner clips per side equally spaced by firmly pushing and/or tapping clip
- Secondly push wing on end of shield by firmly pushing and/or tapping clips

Clips
